- Pine cones
- Natural dyes and paints
- Eco-friendly glue
- Wool and twine

## Skills Developed

Craftsmanship

Storytelling

Ecological Awareness

Public Speaking

Sustainability

## Course Description

Welcome to an enchanting adventure where creativity meets the whimsical world of woodland creatures! In 'Woodland Creature Construction & Conversing,' participants will dive into the heart of the Scottish Highlands, using the bounty of nature to craft delightful creatures straight out of a fairy tale. Under the expert guidance of the ever-elusive Professor Twiggy Whittle, you'll collect twigs, pine cones, and other natural materials to assemble imaginative woodland critters. This playful class not only encourages creative craftsmanship but also enriches storytelling skills as each participant brings their creature to life with unique backstories. Learn the art of natural dyes and paints to give your creatures character and flair, while simultaneously understanding sustainable crafting practices that benefit our beloved ecosystems. As the creatures come to life, students will engage in a joyful creature showcase, honing public speaking skills in a supportive environment. Share tales and adventures of your whimsical companions with fellow classmates, fostering a community of camaraderie and laughter. By the end of this enchanting day, students will leave with not only their hand-crafted creations but also enhanced manual dexterity, ecological awareness, and a newfound appreciation for the playful stories that nature inspires. Join us for a day filled with laughter, creativity, and the simple joy of crafting in the bosom of nature.
