Course Description

Welcome to "The Art of Culinary Wizardry: Conjuring Magic with Marshmallows," a delightful course designed to transform the humble marshmallow into a vessel of culinary enchantment. Under the whimsical guidance of Chef Wandsworth Sugarsmith, a wizard in the world of sweets, participants will embark on a flavorful journey that combines creativity and technique. In this class, students will explore the alchemy of marshmallow making, starting with the basics of crafting perfectly pillowy clouds of sweetness. Chef Sugarsmith will unravel the secrets to achieving that elusive melt-in-your-mouth texture, guiding students through the science and art of sugar and gelatin. But this is no ordinary confectionery class! Venture into the realm of gourmet marshmallows, where infusions of lavender, elderflower, and even chili pepper will surprise the senses. Participants will then channel their inner artists, learning to sculpt and design intricate marshmallow figures using specially provided decorating wands. As the class progresses, students will delve into the curious history of marshmallows, uncovering their origins as a medicinal treat in ancient Egypt and their evolution into a modern-day delight. By the end of the session, not only will students leave with a cauldron full of knowledge, but also a collection of their own handcrafted marshmallow masterpieces, ready to astonish at any gathering.
