Course Description

Step into a world where history meets imagination in 'Giggling Goblets: Mastering the Art of Medieval Upcycling'. This whimsical, yet educational class invites adults to explore the enchanting art of transforming ordinary goblets into extraordinary works of art inspired by medieval times. Under the expert guidance of Sir Arthur Cupsmith, a renowned goblet historian and enthusiastic upcycler, students will delve into the fascinating history of goblets, learning how these vessels were used for more than just drinking. Participants will be equipped with assorted old goblets, engraving tools, eco-friendly paints, and decorative beads to begin their journey of upcycling. Through hands-on activities, students will learn engraving techniques and decorative arts, experimenting with various eco-friendly materials to enhance their designs. With a blend of historical insight and playful creativity, students will gain confidence in presenting their upcycled creations, bringing a touch of medieval charm to modern craft. Perfect for adults seeking to learn unique skills and bring joy into their lives, this class promises laughter, learning, and a truly memorable crafting experience in the heart of Inverness.
