Course Description

Join the School of Dandori for an enchanting exploration into the world of magical letter writing with 'Enchanted Quill & Scribe.' Led by the esteemed Professor Inkwell, this whimsical class invites adults to escape the mundane and embrace the art of crafting letters that delight and inspire. Set against Bath's historic backdrop, students will be equipped with exquisite quills and ink pots to learn the graceful strokes of calligraphy. Beyond mere penmanship, the class delves into the storytelling elements that transform ordinary letters into magical narratives. Students will explore techniques used in historical correspondence, drawing inspiration from the letters of notable figures to weave their own tales of whimsy. They'll also learn how to create their own wax seals, adding a touch of elegance and mystique to their missives. Throughout the session, participants will be encouraged to express themselves creatively, writing letters to imaginary friends, distant relatives, or even future selves. As they hone their skills, students will discover the joy in sending thoughtful messages that bridge the gap between the everyday and the extraordinary, nurturing their souls with each flourish of the quill. By the end, you'll leave with not just a new skill, but a newfound appreciation for the beauty of written communication in our digital age.
