DANDORI

## The Art of Cloud Sculpting: Shaping the Skies

**Instructor:**

Professor Nimbus Skytamer

**Location:**

Chester

**Course Type:**

Outdoor Skills

**Cost:**

**£85.00**

### Learning Objectives

- Identify and classify various cloud types
- Use natural elements to simulate cloud formation
- Master the technique of cloud shading with sunlight
- Develop a creative narrative around cloud shapes
- Understand the science behind weather patterns

### Provided Materials

- Sky-gazing blankets
- Cloud journals and sketching materials
- Portable sun reflectors
- Wind measurement kit
- Set of 'Fog-in-a-jar' kits

## Skills Developed

Meteorology

Creative Writing

Artistic Expression

Outdoor Recreation

Team Collaboration

## Course Description

Welcome to 'The Art of Cloud Sculpting: Shaping the Skies,' where you'll join Professor Nimbus Skytamer in the delightful and airy world of clouds. Set in the picturesque surroundings of Chester, this whimsical class invites you to leave the ground behind and let your imagination soar. During this enchanting outdoor experience, students will gather under the vast, open sky, embarking on a journey to master the art of cloud sculpting. Your adventure begins with learning to identify and classify different cloud formations, from the dreamy cirrus to the playful cumulus. Equipped with sky-gazing blankets and cloud journals, you'll sketch and document your observations while learning the science behind these fluffy masterpieces. Next, you'll delve into creative techniques for simulating cloud formation using natural elements. With portable sun reflectors, you'll explore how light and shadow play across clouds, mastering the art of cloud shading to bring your ethereal creations to life. To add a sprinkle of whimsy, you'll engage in 'Fog-in-a-jar' activities, crafting mini-clouds to understand the fundamentals of weather patterns. Finally, unleash your creativity by weaving imaginative stories inspired by the shapes you see in the sky. Join us for a class that blends art, science, and storytelling, offering a unique perspective on the world above us. Reconnect with the sky, and let the clouds be your canvas!
