- A whimsical booklet on acorn lore and inspiration

## Skills Developed

Nature Art

Storytelling

Creative Crafting

Miniature Design

Sustainable Crafting

## Course Description

Welcome to 'Enchanted Acorn Artistry,' a delightful exploration into the whimsical world of acorn crafting! Led by the ever-enthusiastic Professor Hazel Nutting, this class invites adults to reconnect with nature and creativity in the serene surroundings of Devon. Over the course of a day, participants will embark on an artistic journey where acorns transform into quirky characters, simple ornaments, and enchanting miniature habitats. Students will begin by gathering a bounty of acorns, learning to select the best specimens for their imaginative creations. With a range of non-toxic paints and other natural materials provided, participants will then be guided through techniques of painting and personalizing each acorn, bringing to life anything from charming woodland creatures to eccentric acorn villagers. The class also delves into the storytelling aspect of acorn artistry, encouraging students to weave tales around their creations, giving each piece a story and a soul. This session highlights the sustainable nature of using found materials to craft art that delights both the eye and the heart. By the end of the day, attendees will not only have a collection of beautiful and whimsical acorn art to take home, but also a newfound appreciation for the simple joys and creative possibilities that nature offers. Whether for your garden, bookshelf, or a special gift, these acorn treasures will continue to inspire and spread joy long after the class concludes.
